
**FUTURE
 IN LIFTING**

-  SAFER
-  QUICKER
-  SIMPLER

THINK SAFE. ACT SAFE.

PlatycatSnatcher delivers a significant advance in WORKPLACE SAFETY by distancing workers from the often dangerous task of hook-to-load attachment.

 **NON-MAGNETIC, SELF-ALIGNING & HANDS-FREE**

PlatycatSnatcher sets a new benchmark in Australian workplace health and safety for Confined / Hazardous space. Certified to 1.1 Tonne, PlatycatSnatcher is manufactured to the highest industry standards using quality compliant materials.

HOOKS CAN BE DESIGNED AND MANUFACTURED TO SUIT ANY REQUIRED WORKLOAD LIMIT.

The patented, simple, self-aligning lock system is a revolutionary solution to the safety problems of hook-up, lowering and release. This feature makes PlatycatSnatcher easier to operate in the field which offers SIGNIFICANT COST SAVINGS along with less keychains, manpower and Confined / Hazardous space entries.
